Education

University of Connecticut in Storrs, CT (2017-2020)

Bachelor's in Physics

Description of Study

In my physics classes I worked in a lab setting and used programs such as Microsoft Excel and Wolfram's Mathematica in order to analyse collected data. I also learned to find analytic and numerical solutions to a number of physical situations, both by hand and with a computer.

Experience

A/V Technician at University of Connecticut Student Union

Duties

- Preparing A/V equipment for use in meetings and events
- Troubleshooting problems with A/V equipment
- Talking to customers and addressing needs as they arise

Skills Learned

- Troubleshooting equipment issues
- Soundboard control
- Operating basic A/V equipment (microphones, projectors, spotlights)

Skills

- Statistics with excel spreadsheets, including techniques for nonlinear data analysis and error calculation
- Proficiency with Microsoft Excel, Word, and Powerpoint
- Experience with inventory management, customer service, and troubleshooting
